

SURVEY SOCIAL DANCES & HANDICAP

Dear dancers,

I have launched a survey on social dances and disability on my blog, creactiviste.fr.

I am looking for testimonials from dancers with disabilities who practice, organize, or teach social dances (bal folk, salsa, Argentine tango, ballroom dances, swing dances...). All disabilities are concerned, both visible and invisible.

If you feel concerned, your experience can help to reflect on the situation, and build more accessible and welcoming dance spaces for all.

Thank you!

Claire
